ADVOCACY

As we experience the Golden Age of captive insurance and the remarkable growth over the past year, CICA embraces our commitment to continue providing global education on the benefits and legitimacy of captives at the federal level. In 2025, CICA orchestrated and led two advocacy trips with members and fellow domicile association partners, conducting more than 20 meetings with lawmakers. These critical discussions provided the opportunity for captive owners to share their stories of how captives provide effective risk management tools and strategies for companies. Captive professionals were also able to address misconceptions and provide clarity on many important issues. We look forward to continuing these timely efforts in 2026!
